CAPSTONE PROJECT

ABC Holdings

Capstone Project: Design and Implement a Complete Digital Workplace Solution for ABC Holdings

Project Overview

You are working as a **SharePoint & Microsoft 365 Consulting Team**. Your client, **ABC Holdings**, is a rapidly growing organization with over **500 employees** across multiple departments and locations.

The company currently faces the following challenges:

-  Heavy dependence on email for communication
-  Documents scattered across multiple locations
-  Employees struggle to find information
-  Reports are manually prepared using spreadsheets
-  Approval processes are slow and paper-based
-  Collaboration between departments is inefficient

The executive management has launched a **Digital Transformation Initiative** and hired your team to design and implement a complete Microsoft 365 Digital Workplace Solution.
