

SharePoint CAPSTONE PROJECT

Green Valley University

Capstone Project: Smart University Digital Campus Platform

Project Overview

Design and Implement a Complete Digital Campus Management System for Green Valley University.

Project Scenario

Green Valley University is a rapidly growing university with:

 15,000 Students

 800 Academic Staff

 300 Administrative Staff

 6 Colleges

 25 Academic Departments

 Multiple Campuses

The university currently manages information using paper forms, email, spreadsheets, and disconnected systems.

Students often face challenges such as:

-  Difficulty finding academic information
-  Manual course registration processes
-  Delayed approval processes
-  Poor communication between students and faculty
-  Lack of centralized document management
-  No dashboard for university leadership

The university leadership has decided to implement a modern Digital Campus Platform using Microsoft 365 technologies.

Your team has been hired as Microsoft 365 Consultants to design and deploy the solution.

Project Goal

Build a centralized Digital Campus System using:

- ✓ SharePoint Online
 - ✓ Communication Sites
 - ✓ Team Sites
 - ✓ Hub Sites
 - ✓ SharePoint Pages
 - ✓ SharePoint Lists
 - ✓ Document Libraries
 - ✓ Permission Management
 - ✓ Microsoft Teams
 - ✓ OneDrive
 - ✓ Outlook
 - ✓ Power Automate
 - ✓ Power Apps
 - ✓ Power BI
-

University Structure

The university consists of:

-  Student Affairs
-  Academic Affairs
-  Finance Office
-  Faculty Services
-  Admissions Office

 ICT Department

 Administration

PHASE 1: Digital Campus Architecture

Objective

Design a university-wide SharePoint architecture.

Required Structure

 Green Valley University Hub

|

|——  University Portal

|

|——  Student Affairs Site

|

|——  Academic Affairs Site

|

|——  Finance Office Site

|

|——  Faculty Services Site

|

|——  Admissions Site

|

|——  ICT Support Site

|

|——  Administration Site

Deliverables

 Information Architecture Diagram

 Site Hierarchy

 Security Design

 Navigation Structure

PHASE 2: University Communication Portal

Site Name

 **Green Valley University Portal**

This acts as the university homepage.

Homepage Requirements

 **Hero Web Part**

Create navigation cards for:

 Academic Programs

 Admissions

 Tuition & Finance

 Student Services

 ICT Support

News Section

Create news articles:

 Graduation Ceremony

 New Programs

 Student Achievements

 Research Announcements

 Semester Registration

Events Section

Create events:

 Orientation

 Sports Events

 Examination Schedule

 Graduation Day

People Section

Display:

 University President

 Deans

 Department Heads

PHASE 3: Modern Pages

Create at least 10 pages.

Home Page

University Homepage

Student Services Page

Include:

 Student Forms

 Registration

Student Resources

Academic Affairs Page

Include:

-  Academic Calendar
 -  Curriculum Information
 -  Academic Policies
-

Finance Services Page

Include:

-  Tuition Payment Information
 -  Fee Policies
 -  Financial Aid
-

Admissions Page

Include:

-  Programs
 -  Application Process
 -  Admission Deadlines
-

ICT Support Page

Include:

-  Support Requests
-  Knowledge Base

 Password Reset Information

Alumni Page

Include:

 Alumni Stories

 Events

 Networking Opportunities

Digital Library Page

Include:

 E-books

 Research Papers

 Learning Resources

Student Clubs Page

Include:

 Clubs

 Sports

 Activities

FAQ Page

Include:

Frequently Asked Questions

PHASE 4: SharePoint Lists

Students must create the following lists.

Student Directory

Fields:

- Student ID
 - Full Name
 - College
 - Department
 - Email
 - Year Level
-

Course Registration Requests

Fields:

- Registration ID
 - Student Name
 - Course
 - Semester
 - Status
-

ICT Help Desk

Fields:

- Ticket Number
- Student Name

- Issue Type
 - Priority
 - Status
-

Scholarship Applications

Fields:

- Application ID
 - Student Name
 - Scholarship Type
 - GPA
 - Status
-

Research Projects

Fields:

- Project Name
 - Principal Investigator
 - Department
 - Budget
 - Status
-

PHASE 5: Document Libraries

Academic Documents Library

Store:

 Curriculum

 Academic Policies

 Examination Forms

Finance Documents Library

Store:

 Fee Structures

 Budget Reports

 Financial Procedures

Student Affairs Library

Store:

 Student Handbook

 Regulations

 Activity Documents

ICT Library

Store:

 User Manuals

 Security Policies

 Technical Documentation

Configure

☒ Version History

- ✓ Metadata
 - ✓ Approval Workflow
 - ✓ Content Types
-

PHASE 6: Hub Site

Create:

 **Green Valley University Hub**

Configure:

-  Branding
 -  Global Navigation
 -  Search Across Sites
 -  Aggregated News
 -  Events Roll-Up
-

PHASE 7: Permission Management

Create:

 **Students**

Read Access

 **Faculty Members**

Contribute Access

 **Administrators**

Edit Access

ICT Administrators

Full Control

Restricted Areas

Student Records

Financial Records

Examination Documents

Research Documents

PHASE 8: Microsoft Teams Integration

Create Teams:

 Student Affairs Team

 Academic Affairs Team

 Finance Team

 ICT Team

 Faculty Team

Demonstrate

 File Collaboration

 Online Classes

 Meetings

 SharePoint Libraries as Tabs

SharePoint Lists as Tabs

PHASE 9: OneDrive Integration

Demonstrate:

 Document Sync

 File Sharing

 Backup and Recovery

 Mobile Access

PHASE 10: Outlook Integration

Create:

 University Calendar

Include:

 Registration Deadlines

 Graduation

 Exams

 Sports Events

Demonstrate:

 Notifications

 Calendar Invitations

 Event Reminders

PHASE 11: Power Automate

Build 5 workflows.

Workflow 1

 Course Registration Approval

Student → Advisor → Registrar

Workflow 2

 ICT Ticket Routing

Student submits ticket → Technician assigned

Workflow 3

 Scholarship Approval

Student → Scholarship Committee → Finance

Workflow 4

 Research Proposal Approval

Faculty → Dean → Research Office

Workflow 5

 Student Onboarding

Admission approved → Create student profile → Send welcome email

 PHASE 12: Power Apps

Create:

Student Self-Service App

Features

-  Course Registration
 -  ICT Help Desk
 -  Scholarship Application
 -  Academic Calendar
 -  Student Profile
 -  Announcements
-

PHASE 13: Power BI Dashboard

Create:

University Executive Dashboard

Dashboard 1

Student Statistics

Students by College

Students by Year

Enrollment Trends

Dashboard 2

Academic Analytics

Course Registrations

Completion Rates

Department Performance

Dashboard 3

 Financial Analytics

Tuition Collection

Scholarship Distribution

Budget Utilization

Dashboard 4

 ICT Analytics

Tickets by Category

Resolution Time

Open Tickets

Dashboard 5

 Research Analytics

Research Projects

Funding by Department

Project Status

Publish

 Embed dashboards into the University Portal homepage.

This scenario feels completely different from a corporate intranet because students build a **University Digital Campus Platform** that supports academic operations, student services, admissions, faculty collaboration, research management, and executive reporting using the full Microsoft 365 ecosystem.
